

Adventure Safaris Home School Classes for 2008-2009

Russ and Tricia McGlenn

Creation Science Series -Nature Studies - Whether its mosquitoes, oil, or a T Rex, God has a purpose for everything He created. These lessons for the 2008-2009 school year will show God's plan and handiwork as seen in his Creation. When many leaders* in our country emphasize serving the creation rather than the creator, (Romans 1:20-23) we need to teach our students to take "dominion" over the creation and to practice good conservation of our resources. We are to be good stewards of the Earth but not place it over the welfare of humanity. Our goal is to show God's handiwork and sovereignty as seen in His creation.

Lesson 1 Oil - God's gift to Humankind. Are we running out of Energy in general and oil in particular? Does God care and does He have a plan?

Activity – Oil and Geology flash cards.

L.2&3 Carbon 14 Dating System How old is the Earth? Does science support a young age for the Earth? **Activity** – Carbon 14 Dating Game

L.4 Dragon Graveyards Survey. Dinosaur burials tell us about the age of the Earth and God's Judgment and Mercy

Activity – Learn major geography areas of world. Dragon Flash cards

L.5 Dragon Graveyards close up. Close up of a dinosaur dig, what we find and its relationship to the Bible.

Activity – Dinosaur bone anatomy flash cards.

L.6 Giant Rock Safari. The largest free standing rock in the world testifies to a global catastrophe.

L.7 Devil's Tower. Monument to Noah's Flood.

L.8 Did T Rex Have Feathers? Scientific evidence that ruffles the theory that dinosaurs evolved into birds. A comparison of the data pro and con.

Activity – Save turkey or chicken bones to glue together in class.

L.9&10 Red Shift. Shifty red light shows that the universe is young.

Activity – Use a spectrograph to analyze light rays.

L.11&12 Po 218 Halos-Evidence that the Creation of the Earth's granite crust took less than 3 minutes. **Activity** – Po 218 Bubble Experiment

L.13 Fibonacci Number in Plants. Geometric design shows God's handiwork

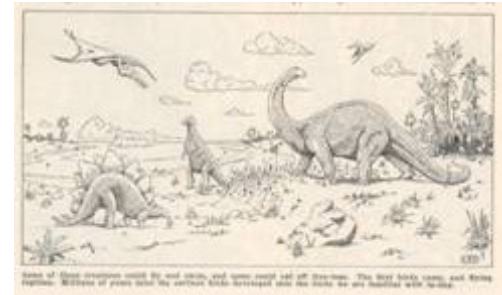

Activity – Look for the number code in 10 plants or animals

L.14 Plant Grafting and the root of Jesse. How grafting illustrates a Biblical truth.

Activity – Graft saplings together using cloth and wax. Plant ID cards.

L.15 Insects that Show God's Handiwork. A survey of several insect's design and activities that show they were intelligently designed.

L.16 Butterflies and Resurrection. The incredible death and resurrection of the Monarch butterfly. **Activity** – bring insects and examine under microscopes. ID cards.

*In her April 22 Earth Day news release, Nancy Pelosi said, "The Bible tells us in the Old Testament, 'To minister to the needs of God's creation is an act of worship. To ignore those needs is to dishonor the God who made us.' On this Earth Day, and every day, let us pledge to our children, and our children's children, that they will have clean air to breathe, clean water to drink, and the opportunity to experience the wonders of nature." [This is not in the Bible and is her own fabrication. RM]

ADVENTURE
SAFARIS

Russ McGlenn is a Creation Science teacher, author, speaker, and amateur paleontologist. He & his wife Tricia are missionaries with Twin Cities Creation Science Association. They live in Santa Maria, CA..
