

## Teaching.

I am getting ready for the fall school year. I will be teaching Biogeology. Here is the class description:

### ***Bio-geology. God's Love and Mercy in the Geological Record***

*What is Bio-geology? Bio means life and these lessons will show how life on earth was affected by the geological formations created by Noah's Flood. Earthquakes, storms, tsunamis and tornados all started as a result of the Flood. We do not want to only learn a list of rock names and attributes. We also want to show that each rock is a miniature history book of God's involvement in the world we live in. All 16 Power Point lessons will be transferred to your flash drive/thumb drive the day of the class. Once students take this class, they will see that the geology that surrounds us is a direct result of Noah's Flood that lasted over one year and not a result of evolution over millions of years.*

\*Prayer need: My home schools have gotten smaller, please pray that more students will come in September to the Minnesota schools and in November when the schools start up here in California.

## Juvenile Justice Center.

I am still working with the two young women that Tricia mentored for many years. They are both doing pretty well. Mariah has one child. She is getting her GED and going to the junior college to get her credits accomplished. \*Please pray she can finish well.

Mary (not her real name) has two children, one 4 who is doing better speaking English because Mary has been tutoring her very well. Her 2 year old has some health problems such as ear infections but is doing better. Mary works at picking strawberries during the day and is a very good mother taking care of the children. Her boyfriend, the father of the two children and an alcoholic, is in jail after being found guilty of beating her up several times.

\*Please pray for him that he will repent and come back to following Jesus as he did profess to be a Christian at one time. Pray for Mary for strength and endurance and that she can get her citizenship.

## Juvenile Center.

I continue to teach a Bible study once or twice a month at the Juvenile Justice Center. Their budget has been cut so sometimes I cannot teach as they do not have enough staff to watch over me having a Bible study.

## Museum.

Amy had some leftover flooring from the house she rents and we put that down in the Bookstore Gift Shop of the museum. It looks really great and is a big improvement. Here is a picture of me after we finished the new floor.

We had advertised a three day Egyptian dinosaur camp to take place at the museum. So far we have gotten 2 registrations. But it was an experiment to see if people would come.

\*Please pray that we can create advertisements for the museum that will capture people's interest.

## China.

We have set a goal of going to China in October this fall. So far we have met our goal of \$3000. Any extra gifts that come in designated for China will be used to prolong our stay there or to go back the following year.

\*Praise: Thank you so much for those who have prayed and given for this ministry.

\*Please pray that the political situation will cool off where they are not persecuting the Christians. If that continues, we may wait till May 2019 to go to China.

\*Health issues. Amy and I are both working on several health issues. Pray that these will be taken care of and we will be doing better. I have double hernia surgery on July 12<sup>th</sup>.

Thank you again for your prayers, financial support and love for our ministry.

In him, Russ and Amy.
