

2019 September McGlenn Minnesota Itinerary

Dear friends and supporters in Minnesota.

Here is my itinerary from September 12 to the 24th.

I'm hoping to meet with each of you who support me financially if possible.

I will be attending Dave Scott's church at **Oakview Middle School on Sept.14, at 10AM. It is along Hanson Blvd** Sunday the 14th. Please call or text me if you could get together for lunch after church that day at 1 o'clock. We will decide on a place then.

I will also be speaking at Northwestern University College 7:30 Tuesday Totino Hall, September 17 doing report on our mission as well as an interesting talk on Pluto the Undiscovered Country showing many things that were discovered on Pluto that shows God's handiwork. (See more below)

I will be speaking Wednesday night at Stillwater Baptist Church. 7 to 8 PM

Thank you again for you to prayers and financial support for our mission. We really appreciate it and couldn't do it without you.

We are sorry Amy will not be able to come because her sister-in-law is dying from Parkinson's disease. She needs to be there to take care of her and translate English doctor visits into Chinese. We ask prayer that she will have strength in this difficult time of her sister-in-law's passing.

Love in Christ, Russ and Amy

Minnesota Itinerary (Please let me know soon if you want to attend any of these events)

12 THUR - Leave From CA

13 FRI - **Como Zoo Safari 10AM to 2:00 Adventure Safaris Zoo Guide Book. 30 pages**

14 SAT - **Pathfinders Part 2 Day 1**

15 SUN – Visit Church Dave Scott

16 MON – OPEN

17 TUE - Visit – Stan & Judy – Peases – Scotts – Burnet

7:30 TCCSA Speak Pluto The Undiscovered County at University Northwestern

18 WED - Stillwater Homeschool with Isaacs

19 THUR - Stillwater Homeschool with Isaacs

20 FRI - Stillwater Homeschool with Isaacs

21 SAT - **Pathfinders Part 2 Day 2**

22 SUN - Church Ryan's

23 MON - OPEN

24 TUE - Leave to CA

Russ Speaking at TCCSA Sept 17, 2019

Pluto – The Undiscovered Country.

In 1930 Pluto was discovered by amateur astronomer Clyde Tombaugh. 85 years after the discovery of Pluto, with the Horizon fly by July 14 2015, we now know what it looks like. Much of the “evolutionary speculation” for 85 years has been proven to be false. I will give 10 undiscovered anomalies that show Pluto could not “evolve” over billions of years but was made by God in a moment of time.

The data sent back to earth from the New Horizon probe has been interpreted by scientists only from an evolutionary world view. The “Undiscovered County” means that much about Pluto is undiscovered because of their bias. Much of the Undiscovered Country is data that shows “God Did It.”

SPECIAL “Little Green Man” (From Space) Play by the Isaac Family Professional Actors

Other Undiscovered countries of our Solar System.

These are called by scientist “anomalies.” When this word is used and we read between the lines it means: “It does not fit evolutionary theories.” I call these theories stories as they are not science based on math formulas.
