

Marvels of the Human Body

7:30 PM, October 16, 2007, Room 116, Totino Fine Arts Center, Northwestern College

Eugene Sattler is an educator and the Director of the Creation Education Association in Pine River, WI.

One of the most remarkable characteristics of the human body is its erect posture. The major benefit of our upright mobility is that the hands are free to do the work of the mind. Our hands are free to explore and manipulate the world around us.

The entire world of culture, art, architecture, literature, theater, music, medicine and space travel is supported by a body that stands up and reaches out. Man is endowed with a long attention span, wide angle stereoscopic vision, and an exquisite hand with a truly opposable thumb. Of all creatures, it is only in man that there exists this powerful combination of visual skills, attentive abilities and a talented hand. These are all necessary for close-in, prolonged eye-hand coordination.

The fifty-four bones of our two hands make up more than one fourth of the two hundred and six bones in the entire body. Thirty muscles move the bones of each hand. It is interesting to note that the cortical areas of the human brain devoted to controlling these muscles are larger than the combined areas that control the chest and abdomen. Researchers have estimated that the human hand is capable of 58 distinct and precise movements. Sir Isaac Newton said that the thumb alone would be enough to convince him of the existence of a Creator.

All meetings are free and open to the public, an offering will be accepted.

What's the progress with the Mail-order Creation Library?

We have 50 new Answers in Geneses DVD's but we lost our volunteer computer expert. If you know about computers, the internet or "Power Builder" and can help, please contact Jeannene Forshee at jcforshee@usfamily.net.

We will try out a limited version of the Mail-order library at the October TCCSA meeting. We will have a selection of DVDs, including all the new ones, for loan at the meeting.

You must be registered and pay \$1 for a stamped, return mailer. DVDs may be kept for one week, late fees pertain.

Send your registration information in ahead of time to jcforshee@usfamily.net. Include your: name; address; phone; and email address if you have one. Bring your driver's license or picture ID to the meeting to verify your address.

There is currently no charge to register to use the library but donations are gratefully accepted and definitely needed.

The Christian Resource Center (CRC) has over 15,000 resources on all types of subjects for all ages, with most of the resources reflecting a Christian world view. CRC is located at Grace Church Roseville which is just North of Hwy. 36 at Hamline and County Rd B2. Open hours are Tuesdays 12:00 – 3:00 p.m. and Wednesdays 12:30 – 3:00 p.m. and 6:30 – 8:15 p.m. Volunteers are needed to enhance what we offer.

Coming Up . . .

November 20—Dr. Don Bierle—Fingerprints of God

December—No meeting

January 21—Julie Von Vett—Mammoths, Ice Age

February 19—Bruce Simat—Subject pending

Have you considered...

...the earth's crust? It is covered with 75% sedimentary rocks, including most mountain tops. Sedimentary rocks are particles that settle out of water into layers. All sedimentary rocks are laid down in water. These particles were eroded, transported and deposited by water. This is exactly what would happen in a flood. How would sedimentary rocks get to the top of mountains? It would take a lot of water, like the flood of Noah's time. As the Bible says, "...the stones would immediately cry out."* with the truth.

...stop and consider God's wonders.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Jerry Roth, former TCCSA president was killed in an ultra-light plane crash in Tennessee. Jerry and Bob Helfinstine co-authored *Texas Tracks and Artifacts*, a new edition just came out in Sept. Please remember his family in prayer.
