## **The Red Record**

7:30 PM, October 20, 2009, Totino Fine Arts Center, Room F2128 (Old F116), Northwestern College

The Delaware Indians have a most detailed record concerning their origin - extending back to the origin of humanity. An original document given to a medical doctor in the early 1800's, translated by a linguist over a twenty year period before the civil war, and essentially lost for the next hundred years has only resurfaced in the last few decades. This document reveals an astounding confirmation of the Biblical account of early earth history - including creation, the entrance of death, the worldwide flood, intriguing references to the post flood ice age, and other details of earth history confirming Biblical truth.

Bruce Malone recounts the captivating story of the discovery, translation and preservation of this remarkable, yet little known, Native American document. The Red Record also provides a fascinating confirmation of Biblical explanations for ice age mysteries - such as why mankind traveled into North America and how large numbers of Woolly Mammoths became "quick frozen" in the Siberian/Canadian Tundra. This talk also places the Red Record into a broader perspective by summarizing the Biblical agreement of earth history with over 250 other flood legends from around the world.

Bruce is a fascinating speaker and this talk should be no exception. Your whole family should attend, and invite your neighbors too.

The talk will end with a new approach to reaching the next generation using the newly released *Censored Science* book as a springboard for reclaiming our culture.

All meetings are free and open to the public, an offering will be accepted.

### **Have you considered...**

...why there are over 360 flood legends from around the world. All the flood legends have a basic theme of... \*God sent a worldwide flood to judge the sinfulness of man. \*One righteous family, who was forewarned, was saved. \*They built a boat, took animals on board and survived the flood. \*At the end of the worldwide flood, their boat came to rest on high mountains. \*The people and the animals got off and repopulated the earth...

This cultural story is what we would expect to find as the survivors told and retold it to their children and grandchildren. With the tower of Babel, the people dispersed even farther across the earth, carrying with them the story of Noah and the Flood. That's the reason we find more than 360 cultures with this flood legend.

...stop and consider God's wonders. Job 37:14

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
