

# CREATION BULLETIN

June 2010

Vol. 36, No. 6

## Amazing Animals

7:30 PM, June 15, 2010, Totino Fine Arts Center Room F2128, Northwestern College, Roseville, MN

Brian Young is a nationally known speaker, author, of several books, and founder of Creation Instruction Association. He has written for various magazines and journals. Brian also served as teacher and principal for 10 years. He currently speaks on creation vs. evolution, as well as scientific creation as a foundation for good science, theology and moral Living. He also debates in Universities. This month Brian will talk about how man's intelligence can't began to match the design found in animals. God's designs have stood the test of time and man can't figure out how it works or duplicate it.

You will learn which car was inspired by a fish.

Why Darwinian evolution can't explain the design in animals.

How animals show evolution is a total fraud.

All meetings are free and open to the public, an offering will be accepted.

### NO ADVENTURE SAFARIS DIG THIS YEAR

Due to the downturn in the economy the dig has been canceled for 2010. For other activities we encourage you to check out some alternatives at [www.tccsa.tc](http://www.tccsa.tc).

Answers in Genesis video conference in Richfield on June 20. Location; Southview Baptist Church, call Jeremy Stephens at 612-866-5956 for details.

### Coming Up . . .

July 20—Video, The Voyage That Shook the World

August—No meeting or newsletter

Sept. 21—Ian Taylor, Where did Billions come from?

Oct. 19—Dave Nutting, Was Darwin Wrong?

Nov. 16—Rob Stadler, Dinosaur Soft Tissue

For updates go to [www.tccsa.tc](http://www.tccsa.tc)

### Have you considered...

...the feather of an owl. It is not like other birds' feathers which have edges that are straight and crisp. An owl's flight feather has fringes on it. It is also different in that it has a notch on one of its flight feathers. Both the notch and the fringes provide the owl with noiseless flight. In fact, an owl is one of nature's stealthiest hunters. Its prey is often unaware until it's too late. Question: What do computers and owls have in common? Computers need fans to keep them cool, yet fans are noisy. What to do? That was the question posed to a group of computer engineers. One evening an engineer noticed an owl flying. He saw it but, could not hear it! The owl was noiseless. Ah Ha! Copy the owl feather! And so, quiet computers were created.

...stop and consider God's wonders

"But ask the animals, and they will teach you, or the birds of the air..." Job 12:7

**TCCSA's STATEMENT OF BELIEF**  
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.  
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.  
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.  
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.  
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

The Christian Resource Center Library has moved to Hand In Hand School. They are now open with limited hours. Email [jcforshee@usfamily.net](mailto:jcforshee@usfamily.net) for information or to volunteer. Check out the information at; <http://tccsa.tc/orgs.html#crc>
