September 2010

Vol. 36, No. 8

Where did the Billions Come From?

7:30 PM, September 21, 2010, Totino Fine Arts Center Room F2128, Northwestern College, Roseville

Internationally known author, speaker and Creation Moments host, Ian Taylor is coming to tell us where evolution gets the billions of years needed to make it look possible. Every few years the earth suddenly gets much older because new evidence shows the old estimate just isn't enough time to account for the complexity they find.

- ◆ Did you know that the billions of years required by the theory of evolution began with a mysterious female "voice" heard in 1667?
- ◆ Charles Lyell received his inspiration to replace the Genesis Flood with a series of local floods from the temple of the Roman goddess Serapis in 1829.
- ◆ The theory of evolution is obliged to teach that evidence for most of the billions of years reside, not so much in the sedimentary rocks themselves, but in the shrinkage cracks between the rock layers!
- ◆ Do you know the difference between sequential and simultaneous deposition of sediments? This subtle difference has expanded the age of the earth from thousands to billions of years!
- ◆ Continuing geological exploration since Lyell's time has shown that well-recognized sedimentary rock facies appear in a continuous layer from Ireland to Australia. This means that this entire global area was beneath water at the same time!

All meetings are free and open to the public, an offering will be accepted.

Set Back?

The CRC library had some resources stored because there wasn't room for them at the current location. Everything in the store room was damaged by water and/or mold. Fortunately these were items that had not been checked out for awhile but were still valuable for research. On the positive side, they won't have to be kept track of or moved again. Please pray for the CRC staff.

Coming Up . . .

August—No meeting or newsletter

Sept. 21—Ian Taylor, Where did Billions come from?

Oct. 19—Dave Nutting, Was Darwin Wrong?

Nov. 16—Rob Stadler, Dinosaur Soft Tissue

Have you considered...

...It was early 1900 and Paul Sperry liked to go sailing. But this hobby of sailing was tough, especially with the flat sole shoes that he wore. Sperry would slip and slide on the wet deck and that was dangerous. What to do? Then one day he noticed his cocker spaniel running on an icy winter path. Why wasn't he slipping and sliding? Sperry examined the dog's paws. The pads had hundreds of tiny cracks and cuts going in all directions. Sperry found some rubber and cut grooves in a herringbone pattern. Then he attached this rubber to his flat bottom sailing shoes and went sailing. The traction was obvious on his wet deck. Sperry went on to manufacture the first non-skid deck shoes. Today grooved soles are a standard on sports shoes. Even many tire treads have a v-shaped herringbone pattern to give good traction on wet and icy road. God has provided answers to many of the dilemmas we face. He is just waiting for us to search out His secrets.

....stop and consider God's wonders. ~Job 37:14

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

The Christian Resource Center Library is located in Roseville and is open with limited hours. Email jcforshee@usfamily.net for information or to volunteer. Check out the information at; <http://tccsa.tc/orgs.html#crc>
