Vol. 36, No. 9

Was Darwin Wrong About Biology? About Geology?

7:30 PM, October 19, 2010, Totino Fine Arts Center Room F2128, Northwestern College, Roseville

2009 represented the 200th Birthday of Charles Darwin and 150th anniversary of his book, *On the Origin of Species*. Universities, schools, and unfortunately, many churches are still having evolution and Darwin Celebration days. However, the nagging question is: Was Darwin Wrong? Has modern science really offered much to support Darwin's theory? Not just to be a party basher, Dave & Mary Jo Nutting give compelling reasons from biology and the fossil record why Evolution doesn't hold up.

Former evolutionary college instructors, Dave & Mary Jo Nutting founded Alpha Omega Institute in 1984. The goal then, as now, is to strengthen Christians and reach unbelievers by exposing the fallacies of evolutionary worldviews and defending the accuracy of the Bible. www.discovercreation.org

All meetings are free and open to the public, an offering will be accepted.

Other activities in our area!

Nov. 19-20: Science & Bible W/Bruce Malone, Ross Olson, Don Slinger, Dan Nuckols and Charles Morris.
St. Lucas Community Church, Lake Elmo.

www.stlucascc.org—discount for early registration.

Coming Up . . .

Nov. 16—Rob Stadler, Dinosaur Soft Tissue
December: no program, no newsletter
Expect great things in 2011

For updates go to www.tccsa.tc

This is what the Lord says—your Redeemer, who formed you in the womb: I am the Lord, who has made all things, who alone stretched out the heavens, who spread out the earth by myself, who foils the signs of false prophets and makes fools of diviners, who overthrows the learning of the wise and turns it in nonsense.

Isaiah 44: 24, 25

Have you considered...

...that penguins wear sunglasses. The penguins that live in the Antarctic experience intense glare from the polar sunlight. Yet, they have clear vision. Why? Within the retina there are colored droplets of oil, these droplets filter out the blue and ultraviolet colors, which allow penguins to experience enhanced visual sharpness without glare. Manufacturers are now copying the same orange-color for protection while welding and outdoor sports. The eye protection of choice is orange not the dark mask from the past that obscured vision. Pilots, skiers and sailors are donning orange-tinted sunglasses and find improved vision in bright sunlight, fog or haze. Why is the color orange a useful light filter? Orange tinted sunglasses reduce or eliminate blue light which is a major component of glare. Eye damage is also minimized by the added blockage of UV light. When we face a problem, such as, I can't see well in bright sunlight...stop and think...does something in nature have the same problem...observe how God solved it...then copy it. God is the master designer, the master problem solver. He solved the problem for penguins' eyesight in the glare of polar sunlight. He can solve your problems. So, the next time you see a penguin say, Hey, cool shades!

...stop and consider God's wonders. Job 37:14

TCCSA's STATEMENT OF BELIEF
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

The Christian Resource Center Library is located in Roseville and is now open with limited hours. Email jcforshee@usfamily.net for information or to volunteer. Check out the information at; <http://tccsa.tc/orgs.html#crc>
