

God's Little Ocean-cleaning Engineers

Tuesday, September 17, 7:30, Totino Fine Arts Bldg, Room F2128, Northwestern College, 3003 N Snelling, Roseville

Russ McGlenn will be speaking on God's Microscopic Engineers. What are these creatures? See if you can guess from the clues below. You will have to come to the meeting to get the full story and answers.

- ◆ They help make 60-80 percent of the Earth's oxygen.
- ◆ They clean the ocean of CO₂, nitrates and phosphates.
- ◆ When they die, their bodies make sand-like layers on the ocean floor.
- ◆ These layers are mined to make industrial cleaners, tooth paste, paints, explosives and over 100 other products.
- ◆ The layers have been used to show that the earth is millions of years old, however, when we take a time formula and input a variable, the time frame fits with a Biblical Chronology.

Russ will be using his famous colorful Power Point slides to illustrate the story of God's Tiniest Engineers.

All meetings are free and open to the public, a free-will offering will be accepted.

Pastor Paul A. Bartz - May 1, 1948 – Aug. 15, 2013

In addition to being editor of the *Bible-Science Newsletter* from 1981 to 1992, Paul served as secretary of the **Bible-Science Association** – which was later renamed **Creation Moments**. Paul preached, lectured, taught and was a prolific author, writing more than 500 articles, editorials and Bible studies on creation during his tenure as editor. He was also the author and editor of the *Our Science Reader Books*-curriculum for children K-12.

In 1987, Paul and the late Brad Walton created and produced the radio program "Creation Moments." Paul went on to write more than 1,600 transcripts that are broadcast to this day around the world in multiple languages. The scripts have been printed in the popular six-volume set: *Letting God Create Your Day*.

More Free Stuff on the Web

Did you know you can get free creation stuff?

- ◆ Ray Comfort's latest video may be viewed at www.evolutionvsgod.com.
- ◆ www.creation.com/creation-for-kids fun things for kids to read and do.

Coming Up . . .

Oct. 15—Rob Stadler, What Evolution Can and Cannot Do

Nov. 19—Bob Bonahoom, Global Warming

Dec—no meeting or newsletter

Jan. 21—TBA

Check for updates at www.tccsa.tc

Program DVD's

Have you wished you had a copy of a TCCSA program that you missed or want to share? Most of our programs have been recorded and are available from Lehrke Productions. They may be purchased at our meetings or from LLL@mtelevision.com.

Welcome to another school year of programs from TCCSA. We want to thank the **University of Northwestern** for allowing us to meet on their campus again this year. The Event Services staff is extremely helpful in providing us with rooms and equipment for each meeting.

CREATIONWISE

Have you considered...

...the recent find of real dinosaur skin, not just an impression of skin, but actual dinosaur skin? Every summer paleontologist, Philip Bell, searches the riverbeds of a certain area in Alberta, Canada looking for newly exposed fossils from the spring run-off. Sure enough June 2012 proved to be a jack-pot! On the river bed cliffs was exposed a hadrosaur (duck-billed dinosaur) with actual skin! The skin was glossy black but scientists are studying the skin's melanosomes to determine the actual color. Was this type of dinosaur grey, green or orange...? The question that puzzles these scientists though is how can dinosaur skin last for some 70 million years? Shouldn't it have decomposed? If we put on our Biblical glasses we can see that dinosaur skin can exist. Dinosaurs were caught and buried quickly in the flood of Noah only 4,300 years ago. Real dinosaur skin shouts Genesis Flood!

...stop and consider God's wonders. Job 37:14

If we haven't heard from you in several years, we may remove your name from our mailing list. Please let us know if you want to remain on our newsletter list. Your mailing label has a letter and a number following your name. The number is the year we last heard from you. R05 = 2005, M12 = 2012. The M number shows the most recent year you were a paid member. Members get additional discounts on many things on our book table which are already discounted. Membership also gets you a free DVD at the book table, ask if you paid by mail.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

We Need Help !

Do you have a desire to get involved with planning our meetings? We need additional members on the TCCSA board. No experience required but a love of science is helpful and belief in God's inerrant Word is required. We meet about 6 times a year.
