## Lise Meitner: The Woman Who Unleashed the Power of the Atom

**Tuesday, Sept. 16, 7:30**, Totino Fine Arts Center, Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville

Lise Meitner, with her nephew, physicist Otto Frisch, discovered and wrote the formula for unleashing the power of atomic energy. In 1891 Austria, it was illegal for a woman to go to high school or on to college. When laws were passed so she could attend college, she was homeschooled by her parents and tutors for two years in order to pass the college entrance exams.

In 1905 at age 24 she became the second woman in Europe to receive a doctorate in Physics. Madam Curie was first with a Physics doctorate in 1903 at the University of Paris.

Russ McGlenn will present the story of this amazing lady, including her escape from Nazi Germany, why someone else took credit for her work, why it took 40 years to receive credit for her work and why she became a Christian. Russ is always interesting and his well-researched topics are inspirational and educational. Kids are encouraged to bring an invention they made or a picture of one.

All meetings are free and open to the public, a free-will offering will be accepted.

### Have you considered...

...the North African desert scorpion; it is continually exposed to sandstorms. These same sandstorms can sandblast paint from steel, pit window glass and erode wood. So why is the scorpion's exoskeleton able to withstand such abuse? Curious scientists discovered that the scorpion exoskeleton was covered with tiny domes only 10 microns high. When computer simulation was applied it was found that these domes deflect the airflow, reducing the sandblasting erosional rate by 50% as compared to a smooth surface. Today's scientists are trying to apply this bumpy technology to turbine blades and helicopter rotors in order to reduce the sandblasting effect. These scientists are just copying what God has designed. When we see design we know there must be a designer and He is God.

**...stop and consider God's wonders. Job 37:14**

### Science Fair February 2015

Now is the time to prepare for the science fair. Can't think of a topic? Is a baby on the way, do you like cooking, curious about snowflakes, is there an illness in your family? A science project can be created from everyday events and experiences. Kindergarten thru 6<sup>th</sup> grade can do an informational or an experimental project. The 7<sup>th</sup>-12<sup>th</sup> grades must do an experimental project.

Ideas: [www.stevespanglerscience.com/lab/experiments](http://www.stevespanglerscience.com/lab/experiments)  
[www.education.com/science-fair/](http://www.education.com/science-fair/)

Go to <http://tccsa.tc/fair/index> for rules.

Where will you spend eternity,  
smoking or non-smoking?

### Coming Up . . .

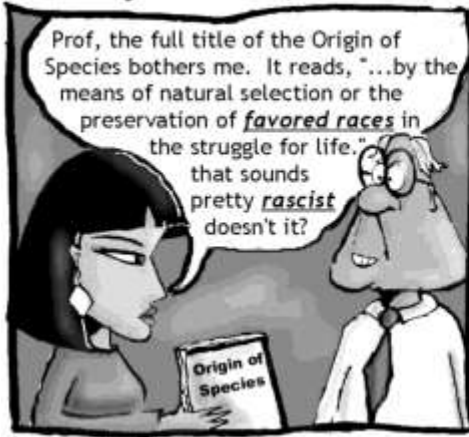

Oct. 21—Alan K. Walker—Genetic Entropy  
Nov. 18—Bruce Malone- Brilliant: Mankind made in the  
Image of God

Dec.—No meeting or newsletter

Jan. 20—Julie Von Vett—Incredible Creatures

Check for updates & other info at [www.tccsa.tc](http://www.tccsa.tc)

**On Facebook? So are we—[www.facebook.com/pages/TCCSA/110571272303973?ref=ts](http://www.facebook.com/pages/TCCSA/110571272303973?ref=ts)**

**Church Point People Wanted**

We would like someone in each church who can promote biblical creation in your congregation. Put up a poster, provide literature to interested people and/or car pool to meetings.

1. You are a Christian
2. Have a desire to promote creation science
3. Do not need to be a leader
4. Need only a basic understanding, not be an expert
5. Have a desire to learn more about creation science
6. Invite speakers or show videos. We can help.

If you are interested in becoming involved let us know so we can provide information and discuss ways to help your church family.

david-johnson@usfamily.net

**Moving?** Let us know so you won't miss out! Help us by letting us know ahead. You can also convert to email so it goes where you go. Thanks

If we haven't heard from you in several years, we may remove your name from our mailing list. Please let us know if you want to remain on our newsletter list. Your mailing label has a letter and a number following your name. The number is the year we last heard from you. R05 = 2005, M12 = 2012. The M number shows the most recent year you were a paid member. Members get additional discounts on many things on our book table which are already discounted. Membership also gets you a free DVD at the book table, ask if you paid by mail.

If you join by mail, request your free gift at your next meeting.

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Have you wished you had a copy of a TCCSA program that you missed or want to share? Most of our programs have been recorded and are available from Lehrke Productions. They may be purchased at our meetings or from [LLL@mntelevision.com](mailto:LLL@mntelevision.com).
