

What's Wrong With Our Textbooks?

Feb. 21, 2017, 7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling

How does evolution have such a stronghold in our culture? Let's take a critical look at our textbooks to see what is being misinterpreted, misrepresented, and censored.

For example, why aren't students told that Lucy's hip looked just like a chimp hip until Dr. Lovejoy cut it and twisted it to make it look human? Why are students told Lucy's skeleton is "nearly complete" when it has less than 60 bone fragments? Why aren't students told dinosaur blood cells and bone cells have been found in dinosaur bones? As taxpayers, we should be concerned how our money is being spent to shape the next generation.

Brian Lauer is from St. Cloud and speaks on creation and education topics around the country and to students at St. Cloud State.

All Meetings are free and open to the public, an offering will be accepted.

TCCSA Annual Report: We had a great year in 2016 with an average monthly attendance of 122.5 for some excellent programs. Most of our programs are recorded and you may purchase DVD's of past meetings at each meeting. We also had farewells last year, Bob Helfinstine, a major part of TCCSA for 40+ years passed away in January and in November Linda Lehrke, our videographer and Tricia McGlenn, wife of Russ joined their Savior. Russ and Tricia served as creation missionaries and home school teachers in CA and MN. We received for memberships, offerings and book sales \$8299.53 and spent on advertising, speaker expenses and resources \$6819.84. Many of our expenses were covered by donations that weren't included in the above figures. We thank our sponsor Dr. Bruce Simat and the Univ. of Northwestern for providing our meeting locations without charge.

This year we will add a meeting in August so only December will be skipped. The turnout will determine if we continue that. Thank you for your attendance and support in 2016 and we hope to see you this year too.

Fiji Outreach to Change a Nation

Will you help supply an *Inspired Evidence* book to a Fiji student? \$1.00 will buy a book and 100% of your donation goes towards books for a student. You may donate \$1.00/book to Julie Von Vett at a TCCSA meeting or send to—Search for the Truth Ministries, 3275 E. Monroe Rd, Midland, MI 48642. (989) 837-5546. Imagine what our country would be like if this happened in our schools.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
