

## How A Young Earth Answers Man's Oldest Problem

January 16, 7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville

Young Earth Creationism is rejected and ridiculed by the unbelieving world. This is not surprising. The Son of God lived among mankind and was rejected as well. But when professing evangelical leaders, churches, and organizations misinterpret the early chapters of Genesis into Old Earth Theory, the ramifications are far beyond "we'll just have to agree to disagree."

In this presentation, David Wheaton, host of The Christian Worldview radio program, will explain how a young earth both exposes and answers man's fundamental problem. David Wheaton is the host of The Christian Worldview, a nationally-syndicated radio program that airs on 250 stations. He is also the author of two books: *University of Destruction* and *My Boy, Ben*. Formerly, David was one of the top professional tennis players in the world. Find out more at [TheChristianWorldview.org](http://TheChristianWorldview.org).

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

... the luna moth of North America. This beautiful pistachio green winged moth comes out at night. The wings spread out revealing a width of some 4 inches while the wings make an elongated ruffled swallow tail. Sure the wings have eyespots to scare away predators during the day. But at night the luna moth's predator is a bat and they hunt with sonar, not by sight. That's where the elongated ruffled tail of the luna moth comes in handy. These twisted tails spin as the moth flies; this causes the bat's sonar to become scattered. The result, the bat likely misses the moth completely or just gets part of the tail. Did this type of tail happen by accident and chance as evolution states? How would the luna moths know they needed a twisted tail, did they know that bat's used sonar to catch them so they created a way of making the sonar ineffective? Do moths have brains to figure this out? How many were eaten before they evolved this specialized sonar confusing mechanism? When we see such engineering we know there must be an engineer behind it and who is that great Engineer? God Himself!

Answers Magazine, November-December 2017, p.23.

### Fiji update

Would you expect our president to go on national TV to promote a Christian book distribution to public school kids? In Fiji their prime minister is doing just that next month and the people of TCCSA have had a part in it. We have helped print and deliver some of the books and our own Julie Von Vett will be going in February to help distribute the books with her Husband, Vince. Julie will be speaking to the school children as will Bruce Malone, Carl Baugh and others. More trips are planned to Fiji and also the Philippines.

You will have an opportunity to help with this project at our meeting this month or on line at [www.searchforthetruth.net](http://www.searchforthetruth.net). This is changing nations and will make a difference for eternity.

### Coming Up (Lord Willing) . . .

Feb. 20—Erik Christenson, Whale Evolution  
Mar. 20—Julie Von Vett, Creation Vacation: Minnesota  
Apr. 17—Clyde Billington, Reformation of Judas Maccabaeus  
May 15—Stacy Lung, Flood Geology of Wisconsin

#### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Most of our past programs are available on DVD from david-johnson@usfamily.net or at the above address. DVD's will be for sale at our meetings as they are completed. Let us know if you desire a specific program.

#### **Semi-annual Election this month**

In even-numbered years members are given the opportunity to vote for board officers. On the other side you and see those who serve as President, Treasurer and Secretary. Members may recommend candidates from the floor if they desire. You need to be paid up for 2018 to receive a ballot and vote.

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder before the meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We never share your information with anyone.
