## Whale Evolution: What Do The Bones Actually Show?

February 20, 7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville

This Whale Evolution talk will focus on the proposed timeline of whale evolution, the changes that have been made over the last few decades, and what the bones really show. Special whale adaptations will be used to show the complexity of these special water dwelling mammals and the improbability that they evolved from land mammals, but were instead created on the 5th day of creation.

Eric Christenson teaches Biology and Marine Biology at a suburban Twin City high school.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

... Saudi Arabia? Under Saudi Arabia's sand dunes archeologists are finding that it was once a well-watered place! Fossils have been found of an extinct jaguar, oryx, a giant elephant with 7.4 foot long tusks and other artifacts. How surprising to find Saudi Arabia, the land of sand dunes, a once rich green landscape! How does this fit into the biblical timeline? After the Flood of Noah's time, many of the world's deserts were lush and green; the warm post-Flood oceans (as a result of the fountains of the deep breaking open and the volcanic activity) would have had a high evaporation rate and produced abundant amounts of rainfall near the equator. In the cold higher latitudes, snow would have precipitated out. This type of climate would have existed for the first millennium after the Flood. Creation Magazine 36(4) 2014. p.7.

Author, Julie Von Vett and others will be speaking to students in Fiji for a couple of weeks this month. Keep them in prayer for safety, health and a rich harvest of souls for our Lord and Creator.

### TCCSA Year in Review for 2017

2017 was an exciting year with many great speakers presenting programs that were well received by attendees of all ages. We were blessed with knowledge should be valuable to us and those who we share it with. Thank you to each one who invites others to come with you and who give of your resources to keep TCCSA going. Last year we averaged just over 133 attendees per month vs. 122.5 in 2016. Also we for the first time added a meeting in August.

Our web site is receiving attention around the world. Most hits are from the US but Russia, Ukraine or China often come in 2nd or 3rd place. We thank God He is using us not just in the Twin Cities.

In December we purchased the video equipment needed to record our own programs. We plan to continue making DVD's available but hope to put some programs on the internet. We also hope to make short 3—5 minute programs available on the internet but will need people with talent of many types to make it happen. If you would like to volunteer in some way let us know.

We received \$9052.80 in dues, offerings, and sales last year and spent \$9958.67 including \$3894.81 for video equipment. Thank you for helping make TCCSA expand locally, nationally and internationally.

### Coming Up (Lord Willing) . . .

Mar. 20—Julie Von Vett, Creation Vacation: Minnesota  
Apr. 17—Clyde Billington, Reformation of Judas Maccabaeus  
May 15—Stacy Lung, Flood Geology of Wisconsin  
June 19—Dr. Clyde Billington, The Abomination of Desolation

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

*The early stages of evolving from whale to dog was quite a problem...*

#### **Moving or away from home?**

We request newsletters be returned with address corrections so we can update our list. Each return costs us postage. If you are moving or will be away for more than a month please let us know. It will save us \$ and you won't miss any issues. You can also sign up for email delivery which you can receive anywhere you go.

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder before the meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We never share your information with anyone.
