## Flood Geology of Wisconsin

May 15, 7:30 PM, Totino Bldg. Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville, MN

What is the significance of the wonderful rock formations we see in Wisconsin and the Upper Peninsula of Michigan? When were they deposited? Many thousands or millions of years ago as the long age people believe? Or, recently by Noah's Flood? This talk shows how the Noah's Flood record helps us to understand the geology of our area. This talk will look at the geology of specific locations in Wisconsin in a chronological "tour" of the geologic processes that operated during the stages of the global Flood and during the subsequent ice age. We can see features associated with the breaking up of the fountains of the deep, flood sedimentation, formations formed by receding flood waters, and ice age features all in our own backyard. Perhaps you will get some ideas for your next creation vacation.

Stacy Lung is the administrator of Christ Serve Ranch with a BS in geology and an MS in environmental education.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...fossilized ripple marks. This very common fossil is found worldwide especially in sandstone formations. Fossilized ripple marks are identical to today's ripple marks. Ripples are formed as water moves over sand. There are two types of ripple marks, those found along beaches and those found on ocean bottoms formed from strong currents. Ripple marks are made in wet sand. They can easily be wiped away, just like a sandcastle on a beach is gone in a few days. To have ripple marks preserved requires rapid coverage and a cementing agent such as calcium carbonate, silica, or iron. We do not see ripple marks becoming fossils today. What event in history has water world-wide and rocks being ground up into sand with cementing agents? The Flood of Noah's day. This very common world-wide fossil has been frozen in time to give testimony to this catastrophic Biblical event. ## Creation Science Writing Contest

TCCSA offers a contest to all K-12 students. Rules are listed at <http://tccsa.tc/archives/contest/index.html>

All entries must be received by May 15 to qualify. Another contest for students age 11-18 is linked at the above web site that closes on April 30.

Our goal is to encourage students to use their God-given talents in writing and to sharpen those talents so they can be used for His glory.

## TCCSA Videos on the Web

Some of our past programs are now on YouTube with links at [tccsa.tc](http://tccsa.tc) for your convenience.

## Topic Returns

In May 1977 TCCSA speaker was Gerald Mallman speaking on Fossils in Wisconsin and the Ice Age. Similar to our talk this month regarding Wisconsin geology, the flood and subsequent ice age. Do you remember the 1977 talk?

## Coming Up (Lord Willing) . . .

June 19—Helmut Welke, Science & Age of Earth  
July 17—Dr. Joseph Kezele, You've Come a Long Way, Baby  
Aug. 20,21—Dr. Kevin Anderson, 2 nights, 2 programs  
Sept. 18—Russ McGlenn, Who was the Pharaoh of Exodus?  
Check for updates at [www.tccsa.tc](http://www.tccsa.tc)

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
