What Are the Created Kinds?

Tuesday October 15, 7:30 PM, Totino Fine Arts Center, Room 2106, Univ. of Northwestern, 3003 N Snelling

A familiar question is "How did Noah get all the species of animals in the Ark?" Noah did not put a pair of every species in the Ark just a pair of each "Kind" of animal. This talk will define a Kind, describe natural selection in terms of Kinds, provide examples of different Kinds and describe how animals are placed into Kinds by people known as baraminologists.

Jim Orme has degrees in Bible and math and worked for Bell Telephone for about 30 years. He Worked on Space science and Telecommunications projects for Bell. Was elected to the position of Senior Member of the IEEE. He founded and led the Northwoods Creation Assoc. in Ashland, WI for 6 years and remains active there.

All Meetings are free and open to the public, an offering will be accepted.

Have You Considered...

...the Philippine snout weevil's coloring? This small beetle has rainbow circles on its wing casings and thorax. The circular scales start with a blue center to yellow to red with all the rainbow colors in-between. These colors are not produced by pigments but by structure. What's unusual about these colors is **they remain the same from every angle!** The chitin structures are 3-D with the size, structure, and volume determining the color displayed. Smaller scales with smaller crystals and less chitin reflect blue light while the larger scales with large crystals and more chitin reflect red light. The crystalline structure splits the sunlight like a prism, creating the rainbow of colors. What is more **unusual and rare** is that the colors remain true no matter which angle observed from. If human engineers could copy this, they could apply it to any industry with color productions such as paints and cosmetics. Engineers have not even come close to having true color fidelity made this way. Nature's engineer has outdone human engineers. Who is nature's engineer? God Himself!

Do you have Study Bibles and commentaries you no longer use? Schools and libraries around the world are looking for resources to aid students, pastors and lay people in their walk with the Lord. Some places have requested creation books as well. www.ew-interknit.org is a non-denominational ministry that ships books around the world. You may contact them directly via their web site or (651) 765-2550. We will collect your resources if you deliver them to a TCCSA meeting. Donations of funds for shipping are also welcome.

TCCSA Videos are on YouTube—link at www.tccsa.tc

We're on Facebook www.facebook.com/pages/TCCSA/110571272303973?ref=ts

Coming Up (Lord Willing) . . .

Nov. 19—Bruce Malone, World-changing Creation Discoveries
Jan. 21—Dr. Ross Olson, New Age; The Next Stage in Evolution
Feb. 18—Steve Law, The Red Sea Crossing
Mar. 17—Jay Seegert, TBA

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
