

Chimp & Human DNA: How Similar?

Tuesday June 16, 2020, available after 6 PM on YouTube.com, search for TCCSA

Most facilities remain closed for meetings of more than a few people so we will be online again this month. Helmut Welke will present this talk via YouTube starting June 16 after 6 PM. This was a change in speakers so David Coppedge can speak to a live audience in October.

This talk reviews some of the more recent fossil finds held up as evidence that humans and apes came from a common ancestor. But DNA has often been used as the final proof of a common ancestor since we are told that Chimp and Human DNA are 98.8% the same. The focus of this talk is to look at the DNA evidence in light of modern research and confirm or debunk that we came from a common chimp-like ancestor.

Have You Considered ...

...Delving into the DNA's information system can be mind-blowing! Let's use an analogy to give us a small insight to the DNA's sophistication. Imagine finding a computer tablet in a deserted alien spaceship. On this tablet is an entire library. The linguists began deciphering. Yes, the sentences can be read right to left AND left to right. Then it was discovered that some of the instruction manual can be read in a different language. Like reading it in English to get the first half of the story and then starting again and reading it in French to get the second half of the story. In addition, one of the languages consisted of only reading three letters. If you start at different places and read, the meaning was changed each time. Needing a quiet place to work on deciphering the tablet, one researcher took the tablet into the kitchen. When she opened the document, she noticed some of the letters had been "grayed out" she read only the black letters and found another message. When the tablet was taken into the navigation office, other letters were "grayed out" and a different message appeared. OUR DNA has an astonishing level of "data compression"! Scientists have only scratched the surface of deciphering DNA. This information system with this level of complexity and sophistication can only come from a super intelligent being, this being is God.

"And these are but the outer fringe of His works; how faint the whisper we hear of Him!" Job 16:14

Satham, Dominic. "the Mysterious Alien Tablet". *Creation* 41(3)2019. 39-41.

TCCSA Videos are on YouTube—link at www.tccsa.tc

For those without internet we have many of our past programs on DVD also.

We're on Facebook www.facebook.com/pages/TCCSA/110571272303973?ref=ts

Coming Up (Lord Willing) . . .

July 21—Joseph Kezele, Do You Have a Date with Carbon 14?

August 18—Bian Young, A New Look at Adam

Sept. 15—Russ McGlenn, Would you Like a Neck or a Wing?

Oct. 20—David Coppedge, Cassini's Discoveries at Saturn

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Moving or traveling?

Newsletters are returned with address corrections so we can update our list. Each return costs us. If you are moving or will be away for more than a month please let us know. It will save us \$ and you won't miss any issues. You can also sign up for email delivery, available right away, anywhere in the world at no cost.

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder before each meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We never share your information with anyone.
