## From the Frontlines of the Worldview War

Tuesday April 20, 2021, 7:30 PM This is a live Zoom meeting, a recording will be on YouTube & DVD

What's it like to share the gospel from the top of America's First Atheist Monument at its dedication?

Enjoy this and more war stories from Eric Hovind, President of Creation Today, who has attended many atheistic rallies and events. His firsthand experience in our culture's worldview war is valuable in showing us the path to take in reaching evolutionists. It's time to rise and shine in this creation battle!

Unlike past TCCSA Zoom meetings this one will be hosted by Creation Today so invite others to this amazing event with one of America's most sought-after speakers!

Have you considered...

... New organ discovered in the human body! In 2020, to the surprise of scientists, a new organ has been discovered, the tubarial salivary glands. These 1½ inch long (4 cm) glands, two of them, are located where the nasal cavity and throat meet. These glands lubricate the throat and aid in swallowing, speaking and eating.

This has special implications for those patients with head and neck cancer. Radiotherapy has produced side-effects such as dry mouth, and trouble speaking, eating and swallowing. Now with the discovery of these salivary glands caution can be taken during radiotherapy, so these side-effects don't materialize.

Who would have thought that science would discover a new organ in 2020 in the human body! Evolution would have us believe that this organ came about by accident and chance over millions of years. Yet, without this organ from the very beginning, would we even be here? These organs help us to eat and help us to speak. These salivary glands show purpose and design which point to the great Designer Himself, God. So, the next time you speak clearly, thank the Designer for two hidden salivary glands that were just now discovered!

The U of Northwestern has tentatively planned to let outside groups meet on campus sometime in May so we may or may not meet in person then. Once we return to Northwestern we will be limited to about 60 people so we plan to continue using Zoom so more can participate. We hear you are wanting to get back to in-person meetings and we do that as quick as we can. Your prayers for us are always welcome and needed. Your prayers for our state and nation are needed now more than ever. God's mercy is our only hope as we see things spiral out of control everywhere we look. We know who wins in the end so stay encouraged.

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
