Serving the Twin Cities since 1973

# CREATION BULLETIN

February 2022

Vol. 48, No. 2

### Origin of Comets, Asteroids and TNOs

Tuesday February 15, 2022, 7:30 PM, **First Ev Free Church, 5150 Chicago Ave S. Mpls 55417**

Kevin Lea will present an overview of Hydro Plate Theory's explanation for the origin of Comets, Asteroids and Trans Neptunian Objects. He will present facts that suggest they were birthed within the solar system and not from the Oort Cloud, and the earth is the likely place of birth.

He will discuss Dr. Walt Brown's predictions pertaining to the above including Kevin's letter to Dr. Brownlee regarding the Stardust Space Mission.

Mr. Lea's interaction with Dr. Brownlee in person and other means showing Dr. Brownlee's shock about their discoveries.

Notice **we will be meeting in S. MPLS** due to a lack of an available meeting room at Northwestern this month. We will also be using Zoom for those who prefer to meet virtually There is plenty of parking available in an easy to find location. Northwestern has us scheduled for the next several months so this should be a one-time location.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

Have you considered...

As I take a wintery walk in February, I ask, "Is that a butterfly I see fluttering in this Minnesota winter?" Yes! There are butterflies that winter over and when it warms up a bit they will venture out from hibernation. Depending on the species of butterfly they will overwinter in one of the stages of a butterfly's lifecycle. Some will overwinter as eggs, others as caterpillars. Many swallowtail butterflies overwinter as chrysalises. Then there are butterflies such as the Mourning Cloaks that will overwinter tucked away in log crevices or underneath loose bark. On the very first warm day of spring they venture out, even occasionally during warm spells in January and February.

Being cold-blooded, they take on the surrounding temperatures, so, how are they able to survive these below zero temperatures? The secret is the antifreeze in their bodies. As days become shorter in Fall, they begin secreting antifreeze into their cells. Now when it gets brutally cold, ice crystals can't form and rupture the cells. Our cars use antifreeze in the winter. Do we think that the car's antifreeze came about by accident and chance? No, there had to be an antifreeze maker. In the same way, the butterfly's antifreeze could not have come about by accident and chance but there had to be an antifreeze maker otherwise there would be no butterflies! Who is the butterfly's antifreeze maker? God Himself. So, the next time you take a winter walk consider all of the butterflies tucked away behind tree bark waiting to fly again.

Butterflies you may see on an above freezing winter day in Minnesota: Question Mark, Eastern Comma, Mourning Cloak, and Compton Tortoiseshell.

**Important Note:** This is our last newsletter using bulk mail. Only a few people are without email now and the postal service requires 200 pieces or more to use bulk mail. If you don't have email and want a paper copy let us know. Use the address on the other side to contact us or have a friend email [david-johnson@usfamily.net](mailto:david-johnson@usfamily.net) to get on our mail list.

Also note our meeting location change this month but access to Zoom will remain the same.

#### Coming Up (Lord Willing)

Mar. 15—Bruce Malone, Trade Secrets of Evolution

April 19—Dennis Siler, Importance of Exploring Creation +

May 17— TBD

Jun. 21—Brian Young,

Check for updates at [www.tccsa.tc](http://www.tccsa.tc)

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Due to rising costs and more people using email this will be our last bulk mail newsletter. For those who don't have internet we will still offer a paper newsletter but you need to request it. Use the address in the upper left corner or [david-johnson@usfamily.net](mailto:david-johnson@usfamily.net) if you know someone who can let us know via email. This will reduce our printing and mailing costs significantly.
