

## The Myth of Settled Science

**Tuesday July 19, 2022, 7:30 PM, Living Springs Church, 8001 University Ave NE, Spring Lake Park**

Jay Seegert is returning with another talk you won't want to miss. This month Northwestern is booked to capacity so we have moved the location. From the South, exit on 79th Ave. and take service road into parking lot. From the north take 81st Ave. east and go around the block to the service road

The time for debate is over ... it's been settled. It's time now for action!" We hear this fairly often and it can be very intimidating. Do we just need to willingly comply with whatever marching orders we're given by the "scientific magisterium"? Is science ever settled?

This talk conveys some very important principles about science and powerfully helps Christians respond whenever they hear, "The science is settled!"

Zoom is available for those unable to attend.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

Have you considered...

...panspermia; the evolutionary theory that the origin of life arrived from outer space and was seeded on Earth? This life form would have hitched a ride on a meteor.

Let's examine: Most of us have seen a shooting star which is just a space rock or meteor being burned up in the atmosphere. One such meteor plummeted to the earth on October 3, 2021, and crashed through a roof and landed on a pillow inches away from a sleeping grandma. The baseball sized black meteorite weighed 2.8 pounds. Scientists examined this meteorite estimating that it lost 90% of its mass as it burned at 3,600 F through Earth's atmosphere. If a life form had been on the meteor, it would have been burned to a crisp! This meteorite and every other meteor burns as they enter Earth's atmosphere, that's why we see "shooting stars". Evolutionists have found it very difficult for life to form on Earth, so they believe it came from outer space. Now this idea is burned to a crisp. Which leaves us with what God has said in Genesis that He spoke, and life came into existence!

Cox, Gavin. "Goodness Granny Great balls of fire!", Creation 44(3)2022. p24-25.

If you don't have internet access we provide most of our meetings on DVD so you can watch them anytime. You can purchase DVDs at our meetings or from Dave Johnson, 6300 Georgia Ave N, Brooklyn Park, MN 55428. You can leave a message at (763) 533-2344.

Do you feel a need to learn more about Creation while taking a few days away? A Wisconsin Creation Adventure awaits you in Westby, WI on August 15-20. Several world-class speakers will be there including Dr. Steve Austin, Eric Hovind and Jay Seegert. Information is available at (608) 634-4373

### Coming Up (Lord Willing)

Aug. 16—Russ McGlenn—Columbus Was Last  
Sep. 20—Dr. Mark Armitage—Soft Side of a Mean Dinosaur  
Oct. 18—Dr. Clyde Billington—The Screaming Mummy  
Nov. 15— Helmut Welke—First 4 days of Creation  
Check for updates at [www.tccsa.tc](http://www.tccsa.tc)

### **TCCSA's STATEMENT OF BELIEF**

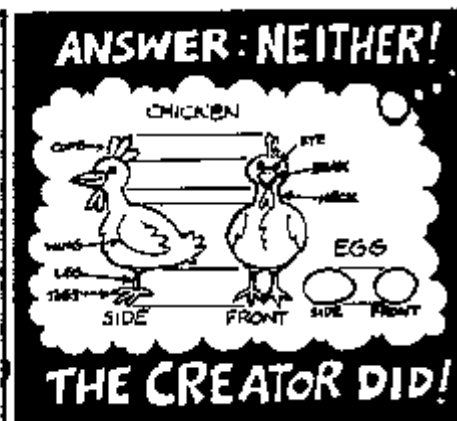

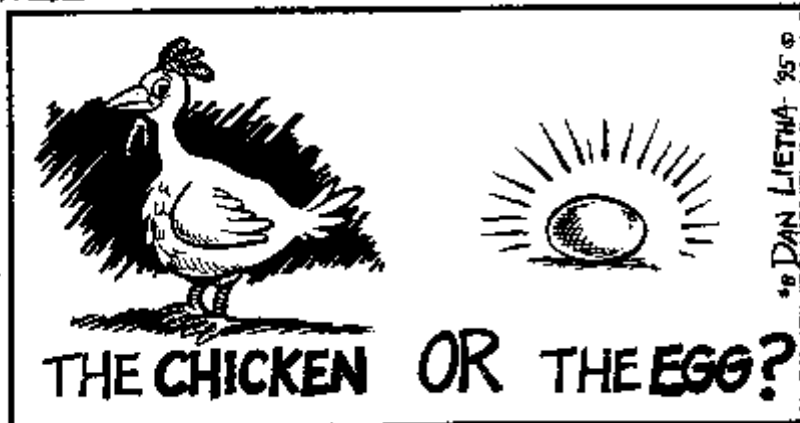

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Millions of people stream into Natural History Museums every year where they are presented the idea that life evolved on earth over millions of years. Is there a different view? Yes, there certainly is, and we believe the Bible presents the viewpoint about origins and earth's history that actually fits the evidence. This movie takes on the leading evolutionary icons presented in museums:

- Human-Chimp 99% the same Myth
- Ape-to-human icons like Ardipithecus ramidus, "Lucy" the Australopithecus, Homo habilis, and Neanderthals,
- Darwin's Finches
- The fossil record and transitional forms
- Pangea
- Dinosaurs
- Whale Evolution
- Historical vs. Observational Science
- Deep Time based on Radiometric Dating

Genesis Impact is staged as an interaction between a secular museum docent and a well-versed creationist, the actors go head-to-head on contrasting views over these major evolutionary icons. This new DVD can be ordered at (844) 743-6374. It can also be view online at <https://genesisapologetics.com/impact/>
