

## Columbus Was Last In 1492

Tuesday August 16, 2022, 7:30 PM, **Univ. of Northwestern, Totino Fine Arts Center, Room F2106**

Columbus was beaten by the Phoenicians 2000 BC, Greeks 90 AD, Hebrew Roman Christians 790 AD, Vikings 1362 AD, Chinese 1421 AD and many others. This program will be a survey of pre-Columbian visitors to the New World since the time of Christ. With emphasis on evidence of the Vikings visiting near Alexandria MN and the Viking Rune Stone.

Artifacts found in fields show evidence for Vikings in the Minnesota area. Critics say that they are things that Scandinavians brought with them to the New World in the 1800's and lost them in the fields where others plowed them up latter. Imagine these poor immigrants coming to Minnesota. They are allowed to bring just one trunk with them. These artifacts are antiques and worth a lot on money. Would they be so careless as to lose them in the fields. I don't think so.

1. They could not afford them to start with.
2. If they could afford them, they would not be so careless as to lose them in the fields and woods!

Russ McGlenn is no stranger to TCCSA, he lived here for many years before moving to California. Russ returned yearly until recent years due to Covid and family health issues. He will present via Zoom from his home base in Santa Maria, CA. We will meet in our usual venue this month.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

Have you considered...

...Climate change? You may recall that in the 1970's there was the fear of another "Ice Age". By the 1990's the temperatures were actually climbing, we had "global warming". From 2000- 2020 warming has not occurred and has in fact been decreasing since 2016, so now we have "climate change". Climate is always changing! If climate did not change, we would be afraid. Here is a quick history:

- ♦ 950-1250 AD (Medieval Warm Period) The Earth was warmer than today
- ♦ 1300-1850 AD (Little Ice Age) Earth's temperature dropped
- ♦ 20<sup>th</sup> & 21<sup>st</sup> Centuries. Warming period started again, yet stagnated the past 20 years
- ♦ 2016+ Temperature started to decline slightly

Here is an interesting fact: Ice sheets melt when the temperate increases and the water runs into the ocean, along with it, iron. More iron in the ocean increases the algae. Algae is a plant, which uses and traps the CO<sub>2</sub>, removing it from the atmosphere. When algae die it takes it to the bottom of the ocean floor. This helps balance the amount of CO<sub>2</sub> in the air. God has set up many mechanisms so we can have a stable planet.

"While the earth remains, seedtime and harvest, cold and heat, summer and winter, day and night, shall not cease." Genesis 8:22.

### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

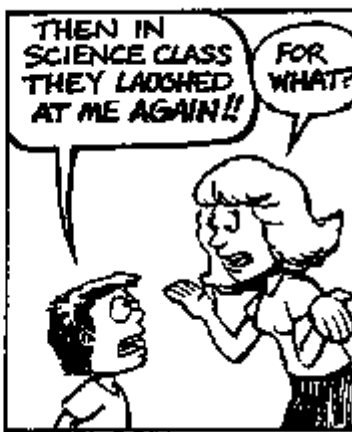

You can receive two free publications each month from ICR just by asking for them. These are for average people and anyone who can read will enjoy and benefit from them.

ICR is a 501 C-3 tax-exempt organization and will give you a receipt for donations to help them **continue to research God's creation** and publish these and more technical publications.
