

Understanding the First 4 days of Creation

Tuesday November 15, 2022, 7:30 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Helmut Welke, M.S., Engineering Manager for a Fortune 200 company, popular creation speaker and president of the Quad-City Creation Science Association in IA/IL, will present his research this month. He is planning to be here in person.

This talk calls for a return to the straight forward reading of Genesis from a Biblical and Scientific point of view. It goes through the first 4 days in terms of what God says about how He created the Universe, including the astronomical bodies. The sequence of events and evidences such as the formation of stars and Super Nova Remnants (SNR's) fit the Biblical narrative far better than Big Bang Theory. He will begin with explaining problems with the Gap theory and the currently popular Framework Hypothesis. The heart of the talk is to go through what the sequence of events that God says He went through and why that makes sense from an engineering perspective.

Updates at www.tccsa.tc All meetings free and open to the public.

Have you considered...

...If there was a worldwide Flood, would we not find it in the history of the tribes across the world? Research done on the First Nations peoples of North and South America reveal over 300 flood legends! As the descendants of Noah left the Ark and were scattered across the world, these people would have brought with them the flood stories and passed them down to future generations. Here are but a few of the flood legends:

- ♦ The Ottawa traditions have Noah (Naniboujou) being warned in a dream of a great flood, built a raft, only his family and animals got on board, the flood came with much rain. After many moons, he created land and mankind anew.
- ♦ The Arctic region, the Inuit of Baffin Island, there was a great flood, killing many. Evidence of the Flood was left on mountain tops with bones of fish, seals, whales and shells.
- ♦ The Indian tribes of the Northeast USA remembered the Flood and also its date! A great gathering to commemorate the 4,000-year anniversary of the Flood took place on Mount Marcy in the Adirondack Mountains. This probably occurred in 1653 for that would have been 4,000 years since the Flood (2,348 BC). These are just a few. The book *Echoes of Ararat* documents over 300 of these Flood legends from North and South America. What a great way to evangelize the First Nation peoples about the God of the Bible. Their ancestors knew about Him!

Liguori, Nick. *Echoes of Ararat*, Master Books, 2021. p.17,21,46,71,115.

Coming Up (Lord Willing)

Jan. 17—Julie Von Vett—Creation / Evolution

Feb. 21—Joe Taylor—Feathered Dinosaurs

Mar. 21—Dennis Siler—TBD

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

This month will complete our year for meetings, everyone gets a break for December We have some great programs lined up for 2023 and continue to get commitments from invited speakers. Please pray with us as we line up speakers that God wants us to have.

Most of the people who receive our printed newsletter don't have access to the internet. TCCSA also continues to provide evidence of God's creative work to the whole world via the world wide web. Each month we literally have people from around the world accessing our web site and videos of past meetings. With the world seemingly spinning out of control we know God is still in control. With wars and rumors of wars, pestilences and natural disasters we see the book of Revelation coming alive. Be ready to meet God at any moment and encourage your family, friends and neighbors with the message that Jesus is coming again.

The old hymn '*Work for the Night is Coming*' was written in 1854 by Annie Coghill. She must have thought the Lord's return was near but we are seeing things now that could not even be imagined then. The Bible prophesied what has to exist before the return of Jesus:

- ♦ The nation of Israel will exist. It does exist since 1948.
- ♦ The whole world will see things in Jerusalem at the same time. Internet makes that possible.
- ♦ Whole world will hear about Jesus, almost there.
- ♦ Turmoil and disasters worldwide. Looks like that is happening now.
