This month's DVD:
Why America is losing its Christian Heritage
The Relevance of Creation

This month's DVD:
Why America is losing its Christian Heritage
The Relevance of Creation

Starting with the decline of Christianity in England (from 60% church attendance in 1949 to 3% today), this “explosive” presentation uses movie clips from 50 years of media conditioning, unforgettable demonstrations, and fast paced visuals to show how we are being trained to reject Biblical teaching. It also gives an overview of the scientific evidence revealing how we can KNOW that God’s Word can be trusted. Listeners are equipped with the tools they need to bring the light of truth to a rapidly darkening culture.
