## "Fearfully and Wonderfully, Made in God's Image"

This presentation celebrates the sanctity of human life, demonstrating that all human beings have immeasurable value because they are made in the image of God. In addition to establishing the biblical basis for this view this presentation showcases the development of human life in the womb.

## "Genesis & The Authority Of Scripture"

The worldview presented to us by the culture is in stark contrast to the straight-forward reading of Scripture. We are intimidated by "science" and led to believe that no thinking person actually takes the Bible seriously. This family-friendly talk gives an overview of the creation vs. evolution controversy. You will be much better positioned to discuss the topic.

## "Who Am I?"

Who we are determines what we do. Who we are is 100% driven by where we think we came from. The world's answer to this question sits in stark contrast to what we find in Scripture. This presentation not only highlights who we are in God's eyes, being created in His image, but also shares some fascinating details from science that confirm the biblical narrative.

## "God's Glory!"

Man is amazed by the wonderful machines we have created. Spaceships that travel to the moon. Equipment that lifts tons of rock. All these things amaze us yet they pale in comparison to God's engineering marvel in the human body. Explore the wonders of the design exhibited in the human body.
