

# CREATION RESEARCH PROJECTS YOU CAN SUPPORT:

**WEB MUSEUM PROJECT** continues with the acquisition of fossils over the past few months which have been little short of spectacular. Not only have we collected great fossil specimens in Australia, USA, NZ and Canada, but we've gained by swap or purchase some great new Mesosaurs, and the catastrophic Trilobites shown below. The Web Museum project is expected to take at least two more years. The need for a Web Museum is compelling. We have visited many Creation Museums around the globe, and despite the great work they do, their one big weakness is that you have to go to them. Students around the world can't do that. Through the Web Museum we can take to them all the great fossil evidence we've collected over the past 25 years. Our storage shelves are bulging with it and we are asking for your help to get it out there. It's an expensive project, but nowhere near the cost of static Museums with their multi million dollar buildings. We need your support.

**ONE TRILOBITE IS DESPERATELY CRAWLING OVER ANOTHER**

CUSTOMS OFFICIALS eventually conceded after much computer scrolling, they didn't have a category for fossil monsters. The Lord has really prospered our geological research in the past year. Join the financial support team now!
