

Dr Robert Carter of *Creation Ministries International*

[Dr Robert Carter](#) will be visiting **St Paul, MN** on **Saturday July 9-Monday July 11, 2011**.

Like many, Rob's faith was shaken when he felt there was a conflict between the science he learned at university (as a marine biologist) and the Bible's account of origins. But on discovering [Creation magazine](#) he says he felt a tremendous joy when he realized science and religion were not at odds. This added confidence enabled him to get through the in-depth evolutionary training of his undergraduate programs with his faith intact.

Rob is an engaging and dynamic speaker you won't want to miss.

Do you have friends or family who would benefit from hearing this information—so timely in a confused world that is searching for answers? If so, please bring them along to the free meetings listed below. All welcome.
