In this message Jason will explain from God's Word why the theory of evolution simply does not fit with God's record of creation, the fall, or God's plan of salvation. Using basic theological truths Jason demonstrates that for any Christian who wants to maintain a high view of Scripture, embracing the theory of evolution is just not an option.

Many Christians think that they can straddle the fence between evolution and the Bible. They do not understand the significance of what they are doing to the integrity of Scripture and the nature of God. Most of our meetings deal with the scientific evidence for creation. This one looks hard at the Biblical evidence against evolution.
