FIBONACCI NUMBERS AND THE DIVINE PROPORTION, THE HAND OF GOD

Paul tells us in Romans, chapter one, the more you look at creation, the more you're going to see God. When we study the evidence in the world around us it becomes obvious that Somebody made this universe. A look at fascinating Fibonacci numbers and the Divine Proportion are just one more example of the endless incredible design found everywhere in nature ... design that could never happen by the chance and accident of evolution. The evidence it is clear that it is **"God that made the world and all things therein,"** (Acts 17:24a). Only the hand of God could create such marvelous wonders that we find around us!

Lanny and Marilyn Johnson are former evolutionists trained in the sciences. Creation teaching was instrumental in bringing them to a settled assurance that all of God's Word can be trusted. In 1993, God led them to join Alpha Omega Institute and establish the Children's Ministry to fortify children with the truth of the Bible and to help them avoid the pitfalls of evolution.
