New Age: The Next Stage in Evolution?

Ross S. Olson MD

Northwestern College

3003 North Snelling, Roseville Minnesota,
Nazareth Hall Chapel (The Building Near The Lake)

For Details Directions & Maps visit www.tccsa.tc

If evolution is a continuous process, then it does not stop with man. If natural processes can produce life from non-life and mutations lead to constant improvements, what comes after intelligence? Superpowers? The end of strife, want and pain? Where does the hope come from and where does it indeed lead? Science blends with religion. Many think there is a new world coming. The vision is not Christian but a clever counterfeit.
