

Twin Cities

Creation Science Association

Special Advanced Seminar

October 20, 2005,

7:30 pm

Walter Remine

**“Haldane's Dilemma:
Nailing Darwin's Coffin Closed**

**Living Springs Church, 8001 University Avenue NE,
Spring Lake Park.**

For Details Directions & Maps visit www.tccsa.tc

The rate of population turnover for larger animals would not allow evolution to take place even if favorable mutations occurred. Evolutionary geneticist, J.B.S. Haldane, uncovered this problem at the end of an illustrious career.

His successors have attempted to rationalize it away but Mr. Remine shows that there is no escaping the inevitable conclusion.

Visit Mr. Remine's website at <http://www1.minn.net/~science> for information on his book, ***The Biotic Message***
