"Creation Vacations: Minnesota"

University of Northwestern - St. Paul, 3003 North Snelling, Roseville, MN,
Totino Fine Arts Center, Room F2128 (Old F116) tccsa.tc

Minnesota- from the North Shore, to the limestone caves of southeastern MN to the glacial features found around the state, how does Minnesota fit into the biblical timeline? Where did the fountains of the deep burst forth at the beginning of Noah's Flood, was it here in Minnesota? Where did all the limestone for the caves come from? Why do I find fossilized sea creatures in the Twin Cities? How do Lake Superior agates fit into the Noah's Flood? These and more will be answered as we view Minnesota's geology from a biblical perspective.
