Birds are among the most beautiful and loved parts of creation. What makes a bird a bird? Its ability to fly, so how are they able to do this? Every part of a bird is a marvel of intricate design. Come and hear of its special designs from its feathers to its breathing system. Many birds migrate. Migration is still a mystery; how do they do it? Do birds see the same colors as humans? What about bird songs? As God asked Job "But ask the animals, and they will teach you; or the birds in the sky, and they will tell you; ...Which of all these does not know that the hand of the Lord has done this?" (Job 12:7,9)
