Come for a fun night of examining "hard hitting questions" about the Ark.

- Would the boat float?
- What's the scoop on the Ark poop?
- Didn't it stink on the Ark?
- How could 8 people care for all those animals?

Through a Q and A presentation, Julie will examine the feasibility of the Ark. This lecture, geared for all ages, is based on the book ***Noah's Ark: A Feasibility Study*** by John Woodmorappe

Julie Von Vett is a teacher at The Academy (sponsored by YEAH), a science teacher at several home school coops, home schooled her own children through high school and is a member of the Board of TCCSA. Her formal education began with a BA in psychology and religion.
