If you listen to the news, it sounds like you should sell your snowmobile and winter clothes. You should expect relatives to move in from the west or east coast because the sea is rising. But wait just a moment. What does the Bible say about all this? Is Global Warming the beginning of Gods judgment? What does science really say about rising oceans? Is Al Gore right in his movie "Inconvenient Truth?" Russ McGlenn has done extensive research on the issues and will help you sort it out with his colorful, fact based power point presentation.
