November 2025

Vol. 51, No. 11

New Age, Next Phase in Evolution?

Tuesday November 18, 2025, 7:00 PM, Univ. of Northwestern, Totino Rm F2106

Dr. Ross Olson will bring us the final program of the year live and in-person.

Evolutionists who look on evolution as an ongoing process have no reason to believe that the human race is the highest achievement, or even the end of the line. For the process to continue, there ought to be indications of potential new structures or behaviors that might become dominant. There do not seem to be proto wings appearing on selected mutants. So maybe is it a nearly invisible psychic gifting that shows up in the children who will become the leaders of "The New Age?"

For those attending our meetings resources are available for any donation to TCCSA. These are books that have been donated from personal libraries. Many are currently available and others you may never find again. This could save you lots of money.

All meetings are free and open to the public

Have you considered ...

... the chicken egg. The shell has 10,000 pores so the chick can breathe. If the shell had fewer pores, the chick would suffocate. If the shell had too many pores, the shell would break from being too brittle. If you peel a hardboiled egg, you will notice a membrane. The chick has two tubes which run to this membrane that allow for the exchange of oxygen and carbon dioxide. Problem: On about day 21, not enough oxygen can get through the tubes. Solution: An air pocket on one end of the egg provides 6 hours worth of oxygen. The chick pecks through the membrane to get to this pocket; thus providing enough oxygen to hatch. Our Master Creator provides the final escape equipment for the chick, the egg tooth which is used to break the shell. This egg tooth was created to do this one job and then falls off. When we look at an egg, it shows design. If there is design, there must be a Designer.

...stop and consider God's wonders. Job 37:14

(The Truth Project DVD #7

It is our privilege to find and make available speakers from around the world. In January our speaker will be coming to us from New Zealand via the internet. This would have been impossible only a few years ago. This year we had a speaker from England speak to us because he was in the states at that time.

The TCCSA board works to make world-class speakers available with the resources you provide, thank you. It's our goal to make excellent programs available that will educate and encourage you. We plan to continue as the Lord provides and blesses us. Please keep us in prayer.

Coming Up (Lord Willing)

Jan. 20—Michael Drake, Confusion of Walton's View of Gen. 1

Feb. 17—Alex Newman – Transhumanism: Humanity 2.0

Mar. 17—Rob Stadler—TBD

April—TBD

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

TCCSA Action!

Who would like our society to move closer to God by promoting creation and Christ? Who is willing to be used by God to expose Satan's deceptive lies? There is plenty to do in the battle and behind the scenes. No effort is insignificant.

If you want to get more involved email TccsaAction@proton.me or call 320-656-5862 (no texts).

We have a table to reach students at Bethel University, Tuesday, Nov. 18, from 11 am to 4 pm. Anyone wanting a chance to interact with students this is your chance to help them understand how the Bible and science are compatible.

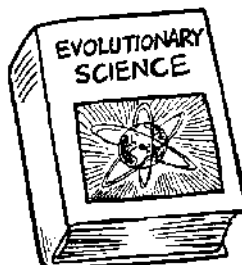

We occasionally need transportation and lodging for one or two nights when a speaker comes to town for our meetings. Please email david-johnson@usfamily.net or call 763-276-8028 if this is something you are interested in helping with.

"Also I heard the voice of the Lord, saying, Whom shall I send, and who will go for us? Then said I, Here *am* I; send me." - Isaiah 6:8
