

Errors in Science Books

Tuesday September 16, 2025, 7:00 PM, Univ. of Northwestern, Totino Room F2106

See several errors found in 2024 science textbooks that prop up a blind chance perspective of the past. Brian Lauer presented these errors to the curriculum director and school board, but nothing was done to correct them. Equip your kids to expose these errors, know what your taxes are funding, and get involved in the battle for the hearts and minds of the next generation. If your kids are out of school, do you quit? What about your grand-kids? What about the kids in your Sunday School attending public schools? Are you above the fray or are you a good Samaritan willing to help those in need?

All meetings are free and open to the public

Have you considered ...

... There are two types of science, *historical* science and *operational* science. *Operational* science is the stuff of test tubes, experiments and observation. *Operational* science involves hypothesis's being rigorously tested again and again to verify its truth. This results in wonderful new inventions such as computers and cell phones. *Historical* science is different. It is a belief about the universe or how life began. To be a historical scientist is like being a detective trying to solve a crime, what happened in the past. This can involve many different interpretations, which cannot be scientifically tested. Creation and Evolution fall under *historical* science. *Operational* science is based on the scientific method not on subjective opinions as with *historical* science. So when you hear someone speaking say, "Science says,..." check in your mind is it *operational* science or *historical* science.

"The Mystery of the Mummy", Dominic Statham, Creation 35(2) 2013, p. 12-14

In August Brian Young spoke to kids but all ages found him fascinating. A ping pong ball traveling faster than 1200 MPH went through a pop can. Sounds made patterns in sand. A water balloon survived a fire. Everything showed fantastic things our Creator created for our benefit.

Brian came about 600 miles from Nebraska just for this one program. There were sights and sounds you may never hear or see again unless you watch the video on YouTube, Rumble or DVD. DVDs will be available at future meetings. We are considering a kids program every year.

Coming Up (Lord Willing)

Oct. 21—Chris Rupe - Contested Bones

Nov 18—Ross Olson, New Age-Next Phase in Evolution

Jan. 20—Michael Drake, The Theology of John Walton

Feb. 17—Alex Newman – TBD

Como Zoo Creation Tour, Thursday, Sept. 11, main entry at 1 pm (1:15 at the giraffes)

Bruce Malone and about 12 others will be in Peru until 9/15/25 and requests prayer that God will use them to present Him to people who need to hear it.

- ☐ I want to become a member of **TCCSA** and I subscribe to the Statement of Belief.
(Calendar year membership dues are \$20.00. Students do not pay dues.)
- ☐ I want to renew my membership in **TCCSA** (note dues above).
- ☐ Mail newsletter ☐ E-mail newsletters and updates
- ☐ I want to make a donation to help promote Creation Science.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

What's going on with TCCSA

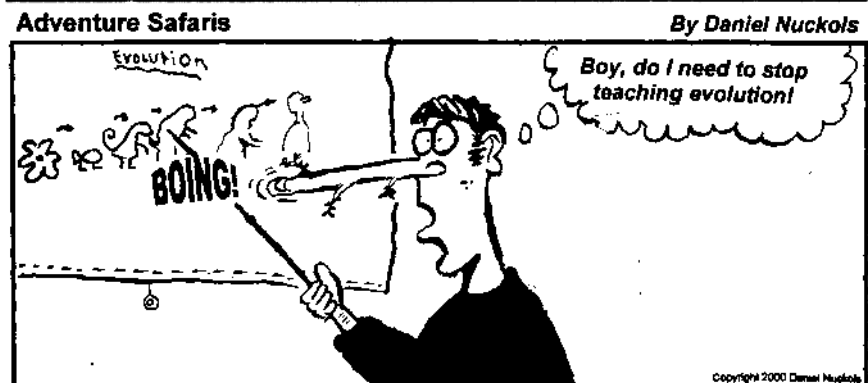

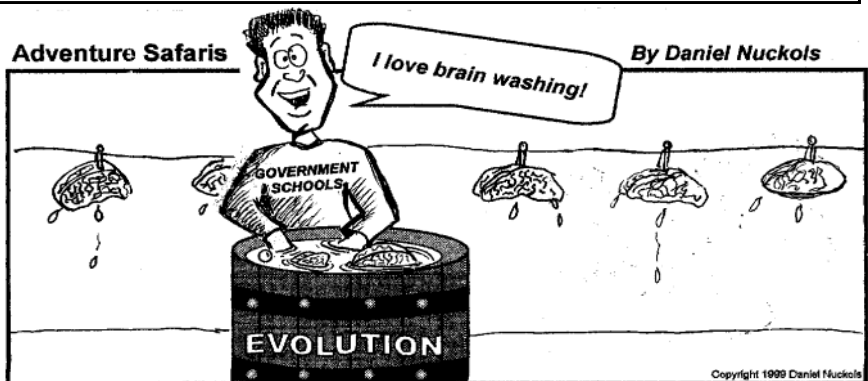

We have been discussing the changes we are experiencing. We are paying \$125 to rent a room, a minimal rate but it all adds up. We are paying for insurance to cover for any trauma someone might experience at a meeting. Travel expenses are going up for those who are coming from a distance.

All of these things are requiring we make some changes to live within our means just like you are. Some speakers are coming to us via the internet where we can see and hear them from anywhere in the world where they are. This has allowed us to have one of our talks come from England and another is scheduled from New Zealand.

Several have met with us from distant states when they were unable to travel.

We still need people with skills we lack regarding live streaming. More board members will give us perspectives we don't currently have.

Please keep us in prayer and invite others to come with you to TCCSA.

We're on Facebook www.facebook.com/pages/TCCSA/110571272303973?ref=ts
TCCSA is on Instagram: @tccsa_tc and on Twitter: @TCCSA_TC. **TCCSA programs are on YouTube & Rumble**—links at www.tccsa.tc. DVDs are also available
