February 2025

Vol. 51, No. 2

"2024: The Year Evolution was Overturned"

Tuesday February 18, 2025, 7:00 PM, Univ. of Northwestern, Nazareth Hall Great Room

In 2024, human evolution—the last viable proof of naturalism—collapsed with the revelation of: Widespread fraud committed by human evolution scientists (150 episodes of fraud); Scientists hiding fossils from their colleagues (too many examples to list); Rampant overturning of ape-men species by evolution scientists (237 species overturned); 42,000 ape-men tools overturned by evolution scientists; Rampant redating of human evolution dig sites; Rampant changing the skull size determination of hominins; and finally, The remaining ape-men that are not hidden and are not fraudulent, are too fragmentary to make the case for human evolution.

These revelations are cause for great joy for those who believe in creation. Since scientists tend to get stuck in their scientific beliefs, it will be the community of non-scientists that ushers in this new era of post-naturalism.

Dr. Carl Werner will be speaking via ZOOM viewed on the large screens in the Great Room.

All meetings free and open to the public.

Have you considered ...

...the northern lights or aurora borealis. These shimmering bands or waving curtains of greens and reds periodically appear in the dark northern evening sky. This beauty is just a reminder of God's protection. You see, an aurora is radiation made visible. It all begins on the sun's surface where protons and electrons are boiled off the sun's surface. These dangerous high speed particles race through space reaching earth in a matter of hours. Instead of hitting earth directly, the earth's magnetic field sweeps the particles into the polar regions. This radiation hits the upper atmosphere causing the air to glow with energy. Without this magnetic field, we would not survive! God placed this special field around us to protect us from these dangerous incoming particles. The auroras just remind us of God's protection. So the next time, you see these shimmering bands of green and red ...

... stop and consider God's wonders. Job 37:14

Astronomy and the Bible by Donald DeYoung (p. 54-55)

P.S. Scientists find a correlation of sun spots and auroras. The greater the number of sun spots the greater number of auroras. Sun spot activity runs on an 11-year cycle.

Coming Up (Lord Willing)

Mar. 18—Bruce Malone— The Awesomeness of God

Apl. 22*—Andy McIntosh -The wonder of the Human Voice

May 20—TBD

***Note: April only will be on the 4th Tuesday**

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

TCCSA Update

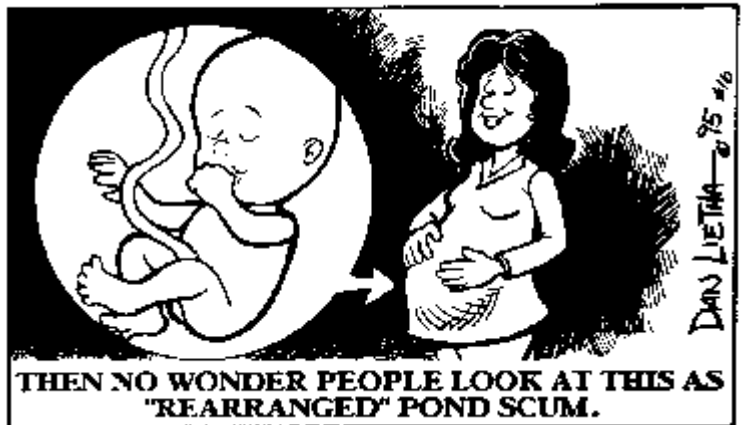

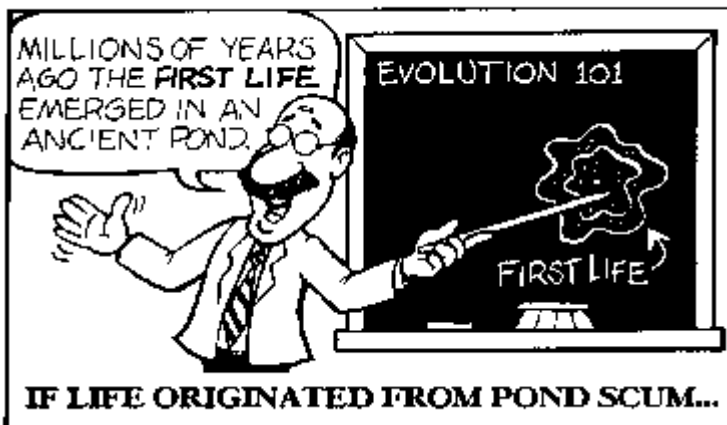

Starting this month TCCSA has purchased an insurance policy to cover our meetings should anyone experience an injury while attending our meetings wherever we are meeting. While Northwestern **requires it now, we have felt it's a good idea regardless where we meet. In over 50 years of meetings nobody has tried to sue us for damages but all it takes is one time to damage or destroy TCCSA.**

We are signing a contract with Northwestern covering February through June that will cost us \$100 per meeting for the use of their facilities. This is a huge discount from what they normally charge and we are grateful they let us use their beautiful campus. The fee is scheduled to increase starting in July.

Thank you for your generous offerings that make it possible to continue providing wonderful programs by interesting and knowledgeable speakers. Invite your family and friends to attend with you so this information will be available to more people locally and internationally.

We have received a few extra donations from individuals and a church to help us meet the financial challenges we are facing. Maybe your church is looking for a missions organization to support. TCCSA is a 501(c)3 tax exempt organization that is providing great information world-wide.
